

ELECTRICAL AND INSTRUMENTATION (E&I) ENGINEER

If you are interested in joining an exciting company within Europe's largest industry then **SF Engineering** may be right for you. As one of Ireland's leading manufacturers of products and solutions for the global food industry, a career at SF is beyond what you would expect. At SF we realise that our employees are one of the keys to our success. We look for individuals who share our passion to succeed.

As a leader in our field, we are growing rapidly and have a number of exciting positions available, including an **Electrical & Instrumentation Engineer**.

Reporting to the Operations Manager, the **E&I Engineer** will be required to assist with the day to day activities of project scoping, associated Sub-Contractor/Supplier management, construction, installation and commissioning of new equipment.

Specifically, you will be responsible for:

- Providing technical input during the project bidding phase including: Specification Reviews, Drawing Reviews, Instrumentation Selection and Procurement / Pricing, Prepare bidding and scope documents in relation to Electrical contractor selection
- Manage EC&I Subcontractors
- Markup and checking of drawings
- Liaise between in-house mechanical project engineer and subcontractors
- Witness Electrical and Instrument panel manufacturing, testing, commissioning work and assist in start-up of systems including: Instrumentation Configuration and Set Up, Troubleshooting of Electrical, Mechanical and Software Issues
- Preparation of punch list to ensure that the contractor rectifies all items before client final commissioning and client acceptance.

We are looking for someone with the following background:

- Electrical or Instrumentation degree or Technical Trade equivalent
- Hands on experience with industrial electrical and automation
- Ability to read electrical drawings
- Min 3 years' experience with build / installation of projects
- Proficient in the use of Word, Excel, PowerPoint and Outlook
- Proficiency in the use of electrical drawing packages an advantage
- Clear and concise verbal and written communication and presentation skills
- Passionate and self-confident but open and willing to learn
- A team player
- Ambitious, loyal and driven to progress their long-term career
- Experience in the food industry is a distinct advantage
- IT literate
- Willing to travel to customer sites

Salary package:

- Depending on the candidate skills/experience
- Will be progressive based on the selected candidate progressing their career within SF
